

OSHP SECTION LEADERSHIP 2019-2020

(Sections currently under construction)

PHARMACY MANAGEMENT

Section Leaders: Michelle Murray and Helen Noonan-Harnsberger

The Pharmacy Management Section of OSHP exists to connect pharmacy leaders across the state of Oregon. The section was created to bring formal and informal leaders together to discuss experiences, share ideas and support each other. We hope to engage our members including pharmacists, pharmacy technicians and students with regular events.

INPATIENT PRACTITIONERS AND CLINICAL SPECIALISTS

Section Leader: Stacey Olstad

The Inpatient Practitioners and Clinical Specialist section of OSHP aims to establish a professional network for acute care pharmacists, technicians, and students statewide. Our goal is to provide opportunities for acute care and specialty practitioners to share experiences and knowledge in an open forum to optimize patient outcomes. In doing so, we hope to foster communication across the different specialties for practitioners throughout Oregon.

Psychology

Surgery

Transplant

Geriatrics

INFORMATICS, TECHNOLOGY & RESEARCH

Section Leaders: Jacob McFarland, And Pranesh Narayanaswami

The Informatics, Technology, and Research Section of OSHP strives to be an active and engaging community for pharmacists, pharmacy technicians, and students involved or interested in this rapidly growing specialty practice. We hope to engage our members with regular community events, where we can discuss common experiences, discuss strategies/solutions, and share ideas, either locally or remotely.

AMBULATORY CARE

Section Leaders: Edward Saito And Madeline Fry

The Ambulatory Care Section of OSHP strives to be a professional network of pharmacists across the state of Oregon who provide ambulatory care services. Activities of the section are designed to facilitate a sharing of ideas, resources and efforts as they relate to the practice of pharmacy in ambulatory care settings, as well as create the framework for establishing local and regional practice-based networks. Section membership is comprised of pharmacists who practice across a variety of settings including, but not limited to, primary care, managed care, anticoagulation, community pharmacy, pain/palliative care, and community health centers.
